Dear Dr Halloran,

Thanks for your email. We are currently starting to migrate the GEnIE code onto GitHub. This will be complete in the next couple of months, so we should be able to provide a DOI by the end of the initial review stage. In the meantime, the code is available on an svn server that has been continually online for over 15 years. Please let me know if this will be ok as a short-term solution.

I had not realised that taking words from an unpublished chapter of my PhD thesis was considered plagiarism. I have amended the paragraph, as requested. It now includes some more recent citations.

best regards,

Ben Ward
